Copyright and Public Domain

All the tunes in these books (with five exceptions, noted below) are in the *public domain*; that is to say, they are not under copyright, they are not “owned” by anyone living or dead, and are free for anyone to use for purposes such as this.

In doing my research, my constant mantra was “when in doubt, don’t.” If I wasn’t absolutely certain that the tune was in the public domain, I did not include it here.

I also discovered that in some cases the *tune* is in the public domain, but the *lyrics* are not! So, to be perfectly safe, I’ve eliminated lyrics from some of my arrangements. There are dozens of websites that do seem to offer a variety of lyrics, copyrighted or not. I leave it to you to make your own discoveries if you no longer remember the lyrics to your own personal songs of yesteryear. Several of these websites are listed in “Resources and Credits” at the end of the book.

Likewise, all the illustrations that appear throughout the book were downloaded from public domain web sources. Photographs are my own, or used with permission.

So is one of *your* favorite tunes missing from this book? Perhaps it’s copyrighted! I was very surprised to learn that certain songs one would assume to be in the public domain actually weren’t, including such well-known favorites as “I’m a Little Teapot,” “This Land Is Your Land,” “The Happy Wanderer,” and “The Hokey Pokey.” Copyright laws dictate that the usage of any tune and/or lyrics *not* in the public domain requires permission and a fee to arrange and record.

In the original print version of this book, there were five tunes that I wanted to include but which were under copyright protection. In order to do this, it was necessary to pay a considerable fee to the copyright holders, in exchange for which they granted permission to use their songs in this book.

But — this is the digital age, and now that I’m offering this book in digital format, I do not have the proper permission to include those five songs, nor am I willing to pay the additional licensing fee that would be required.

Thus, to keep from violating copyright laws, I am offering this digital version without those five tunes.

Here are the titles of the five songs that are NOT included in this eBook:

**“The Happy Wanderer”
“(Ghost) Riders in the Sky”
“Tennessee Waltz”
“Zip-A-Dee-Doo-Dah”
“Oh, What a Beautiful Mornin’”**

Thank you for your understanding, and thank you in advance for honoring and respecting all the material in this and all other similar books by not sharing with others by any means.

The “greyed-out” titles have been deleted from this digital version. They are only available in the print version.

CD Track List -- Book 3

A digital version of the CD is sent separately.

Both the track number and the page number are shown on the playlist below.

Every effort was made to ensure that I was recording exactly what I'd written. But -- please forgive me if you hear something slightly different from what's on the page. Sometimes I've added a note or two, or left one out here and there. It all just reinforces what I've said all along: You will *not* land in Dulcimer Jail if you don't play every note just as it comes...

There are a few rounds in this book -- I've recorded those with extra time at the end of the track. When you hear me starting the 2nd part, you can enter at the beginning of the song and play along. At the end, I've left enough time for you to finish up your part.

All the tracks on the CD are copyrighted. Please do not duplicate!
